

# Cottonwood Creek Watershed Implementation - Phase2 (Idaho CD)

Program Water Quality Implementation
Lead Implementer Idaho County Conservation District

**Funders** Idaho Soil and Water Conservation Commission, Private Party

Project Primary Contact Stefanie Hays (stefanie.hays@id.nacdnet.net)

Project Stage Completed

Duration 2006 - 2011

## Natural Resource Projects & Practices > Water Quality Implementation

Cottonwood Creek is a second order tributary to the South Fork Clearwater River located in Idaho County. There are 5 major tributaries to Cottonwood creek,. The watershed area is 124,439 acres. According to the Cottonwood Creek and South Fork Clearwater TMDL's, there are sediment, nutrient, temperature and bacteria load reductions needed. The Implementation project objective was to work toward these needed pollutant reductions.

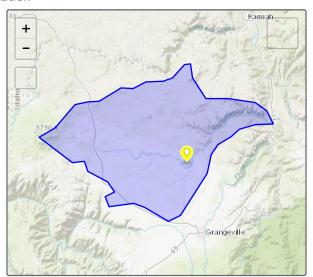

### **Key Accomplishments**

- Fence (linear feet): 6,161.00 If
- Heavy Use Area Protection (number): 14
- Pasture & Hayland Planting (acres): 200.00 acres
- Pipeline (linear feet): 4,395.00 If
- Residue Management, Direct Seed (acres): 1,359.00 acres
- Spring Development (number): 1
- Stream Crossing (number): 1
- Water Well (number): 1
- Watering Facility (number): 10

# **Project Themes**

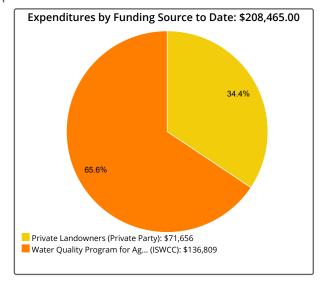

- Agricultural Lands
- Healthy Watersheds

Tracker tells stories at a broad-brush level. Individual project performance measures and expenditures should not be relied upon for complete and total accuracy and should be confirmed with a project's lead implementer. Project locations subject to confidentiality provisions under state and federal law specify the location of a local conservation district or USDA service center office.
